# BIG BANG UNICO SAPPHIRE

UNICO SAPPHIRE  
411.JX.4802.RT

Ten years after the launch of the All Black concept, and to mark the anniversary of this current «must-have» trend, Hublot is once again disrupting natural order. With its iconic watch, the brand is presenting a new interpretation of the visible and the invisible – transparency. The exterior of its watch is now invisible, so that the construction and movement of the timepiece are now fully visible.

The case middle, bezel and back of the Big Bang Unico Sapphire are cut from blocks of sapphire. A material which is almost as hard and scratch-resistant as diamond. Limited edition of 500 pieces.

## CLASSIC FUSION BERLUTI

72  
73

This Classic Fusion bears Berluti's signature Venezia leather, and its famous patina. Watches and leathers, like fine vintages, that distinguish this original and bold model. A fusion of the expertise of patina and watchmaking to create a watch with personality. The watches are delivered in a stunning Berluti leather watchbox together with the brand's own shoe polish and brushed objects. Limited edition of 250 Scritto and 500 All Black models.

# BIG BANG HIGH JEWELLERY 10 YEARS

138  
139

An outstanding piece: 523 baguette diamonds for more than 36 carats. Sparkling and powerful, this is the major High Jewellery piece Hublot has presented in 2014. The tonneau case is fully set with 412 baguette diamonds. Its openworked sapphire dial, fully set with 75 baguette diamonds for more than 3 carats perfectly reveals the fine mechanics (155 components with 5-day power reserve) of this watch. The skeleton tourbillon movement is entirely conceived, developed and produced in the Hublot Manufacture workshops. A precious yet refined watch – a limited edition of only 8 pieces.
