With its reputation as the first luxury brand to invest in football, Hublot has maintained its status as games master for ten years. Prestigious partnerships have been established, from Bayern München in Germany, to the Juventus Football Club, and since last year, Chelsea Football Club. Hublot loves football and only has the best teams on its side!

44
45

With this iconic watch, Hublot is presenting a new interpretation of the invisible visibility. The exterior of the watch is now transparent, so that the construction and movement of the timepiece are now fully visible. The case, bezel and back of the Big Bang Unico Sapphire are cut from blocks of sapphire. A material which is almost as hard and scratch-resistant as diamond. Limited edition of 50 pieces for the Unico Chrono Perpetual Calendar Sapphire and 500 pieces for the Unico Sapphire.

CLASSIC FUSION BERLUTI

This Classic Fusion Berluti bears the shoe brand's signature Venezia leather and its famous patina. Watches and leathers, like fine vintages, that distinguish this original and bold model. A fusion of the expertise of patina and watchmaking to create a watch with personality. The watches are delivered in a stunning Berluti leather watchbox together with the brand's own shoe polish and polishing accessories. Limited edition of 100 models for the Scritto Platinum and 500 for the Scritto Ocean Blue.

MP-07 40 DAYS POWER RESERVE

Hublot created an incredibly complicated movement with a 40-day power reserve that exudes sophistication and power – a case with a strong character that shows both the scope of the movement while also enhancing it. The mechanics were positioned for ergonomic comfort on the wrist, while the “cylinders” provide highly legible information that resembles the mileage indicators on Classic Cars. The very masculine and sporty aesthetic – strong and assertive – is the perfect fusion between the watchmaking and automotive worlds.

MP-05 “LAFERRARI” SAPPHIRE

120

121

While the original design of the MP-05 “LaFerrari” was created to show off the beauty of its record-breaking 50 days power reserve movement, its alter ego, with its case carved out of sapphire, makes the movement appear to be literally suspended in mid-air. With the MP-05 “LaFerrari” Sapphire, limited to 20 pieces, Hublot takes us into a supernatural world.

IMPACT BANG

This High Jewellery watch perfectly represents the Art of Fusion in the *métiers d'art* of the closed setting and diamond cutting in new and improbable shapes, giving birth to a unique and different product. The Impact Bang integrates a tourbillon calibre whose cage is the centre of an explosion of diamonds. In white gold, the Impact Bang is set with 484 Baguette-cut diamonds for a total weight of 30.55 carats. This model required almost 400 hours of R&D, as well as 240 hours of setting. An innovative architecture and an audacious approach.
